INDEX OF SUBJECTS

Adoption of improved cultivars of pearl millet in an arid environment: straw yield and quality considerations in Western Rajasthan (Kelley, Parthasarathy Rao, Weltzien and Purohit), 161

Africa (humid and sub-humid tropics) and agroforestry and the mitigation of land degradation (Cooper, Leakey, Rao and Reynolds), 235

African agriculture and pest and disease hazards and sustainability (Goldman), 199

Agricultural entomology and the estimation of technological needs and identification of problems of farmers for formulation of research and extension programmes (Sabarathnam and Vennila), 87

Agricultural Meteorology (handbook of), ed. by J. F. Griffiths, reviewed by J. L. Monteith, 231

Agricultural research, and its role, by Derek Tribe, reviewed by P. B. Tinker, 373

Agricultural Research in an Era of Adjustment: Policies, Institutions and Progress (EDI Seminar Series.), ed. by Steven R. Tabor, reviewed by J. K. Coulter, 375

Agroforestry and the mitigation of land degradation in the humid and sub-humid tropics of Africa, (Cooper, Leakey, Rao and Reynolds), 235

Alley cropping system in sub-tropical Australia and competition effects between leucaena and maize grown simultaneously (Jeanes, Gutteridge and Shelton), 49

Andean hillsides and soil conservation effectiveness and crop productivity of forage legume intercropping, contour grass barriers and contour ridging in cassava (Leihner, Ruppenthal, Hilger, and Castillo F.), 327

Andes in southwest Colombia and rainfall erosivity and erodibility of inceptisols (Ruppenthal, Leihner, Hilger and Castillo F.), 91

Australia (sub-tropical) and competition effects between leucaena and maize grown simultaneously in an alley cropping system (Jeanes, Gutteridge and Shelton), 49

Barley Yellow Dwarf (Review of): Forty Years of Progress, ed. by C. J. D'Arcy and P. A. Burnett, reviewed by Richard Harrington, 106

Beans and maize in intercropping and a study of the partitioning of applied nitrogen between them (Siame, Willey and Morse), 445

Beyond farmer first: rural peoples knowledge, agricultural research and extension practice, ed. by I. Scoones and John Thompson, reviewed by David Brown, 103

Biodiversity Conservation and Intellectual Property: An Interdisciplinary Analysis of the Values of Medicinal Plants, ed. by Timothy M. Swanson, reviewed by Angela Karp, 507

Biological management of tropical soil fertility (the), ed. by P. L. Woomer and M. J. Swift, reviewed by P. J. Gregory, 103

Biology and Management of Orobanche (Proceeding of Third International Workshop on Orobanche Research), ed. by A. H. Pieterse, J. A. C. Verkleig and S. J. ter Berg, reviewed by J. A. Lane, 105

Biomass production, and feed and economic value of fodder weeds as by-products of millet cropping in a Sahelian farming system (Lamers, Buerkert, Makkar, von Open and Becker), 317

Burundi highlands and the influence of time of planting and spacing on the production of fodder and fuelwood in associations of *Calliandra calothyrsus* and *Pennisetum purpureum* grown on contour bunds (Akyeampong), 79

Cajanus cajan see pigeonpea

Calliandra calothyrsus/*Pennisetum purpureum* associations grown on contour bunds in the highlands of Burundi, and the influence of time of planting and spacing on the production of fodder and fuelwood of such associations (Akyeampong), 79

Camellia sinensis, see Tea

Cassava on Andean hillsides and soil conservation effectiveness and crop productivity of forage legume intercropping, contour grass barriers and contour ridging (Leihner, Ruppenthal, Hilger, and Castillo F.), 327

Cereal grain and protein yields (Simmonds), 351

Cereal production and water-harvesting in valley floors as a viable option in highland Balochistan, Pakistan? (Rodriguez, Shah, Afzal, Mustafa and Ali), 305

Cocoa clone yields in response to planting density in Malaysia (Lockwood and Pang), 41

Coconut and the optimization of mineral nutrition in a plantation, taking an experimental approach *in situ* (Bonneau), 405

Competition effects between leucaena and maize

grown simultaneously in an alley cropping system in sub-tropical Australia (Jeanes, Gutteridge and Shelton), 49

Conservation Tillage in Temperate Ecosystems, ed. by M. R. Carter, reviewed by J. Pidgeon, 373

Contaminated Soils (description and sampling of): A Field Guide. Second Edition, by J. Russell Boulding, reviewed by Stephen Norcliff, 233

Control of Crop Diseases (Second Edition), by W. R. Carlile, reviewed by J. M. Hirst, 506

Cowpea (short rotation) fitted into a cotton-based cropping system in Tanzania: effect of planting pattern, time of planting cowpea, and insecticide application to the cotton (Myaka and Kabissa), 225

Cowpea (*Vigna unguiculata*) development. I. The influence of temperature on seed germination and emergence (Craufurd, Ellis, Summerfield and Menin), 1; II. Effect of temperature and saturation deficit on time to flowering in photoperiod-sensitive genotypes (Craufurd, Qi, Ellis and Roberts), 13; III. Effects of temperature and photoperiod on time to flowering in photo-sensitive genotypes and screening for photothermal responses (Craufurd, Qi, Summerfield, Ellis and Roberts), 29

Cotton-based cropping system in Tanzania and the introduction of short duration cowpea into the system: effect of planting pattern, time of planting cowpea, and insecticide application to the cotton (Myaka and Kabissa), 225

Crop production in a variable environment: a case study from southern Zimbabwe (Scoones), 291

Crop improvement (farmer participatory). I. Varietal selection and breeding methods and their impact on biodiversity (Witcombe, Joshi and Sthapit), 487; II. Participatory varietal selection, a case study in India (Joshi and Witcombe), 487; III. Participatory plant breeding, a case study for rice in Nepal (Sthapit, Joshi and Witcombe), 487

Cultural Dimension of Development (the): Indigenous Knowledge Systems, ed. by D. M. Warren, L. J. Slikkerveer and D. Brokensha, reviewed by Vanessa Scarborough, 505

Dearth to Plenty (from): the Modern Revolution in Food Production, by Kenneth Blaxter and Noel Robertson, reviewed by J. K. Coulter, 506

Drought and temperature response of young tea (*Camellia sinensis*) clones. I. Yield and yield distribution (Burgess and Carr), 357; II. Dry matter production and partitioning (Burgess and Carr), 377

Ecology of Tropical Food Crops (the) (Second Edition) by M. J. T. Norman, C. J. Pearson, and P. G. E. Searle, reviewed by M. H. Arnold, 375

Economics and Ecology of Biodiversity Decline (the): the Factors Driving Global Change, ed. by Timothy M. Swanson, reviewed by N. W. Simmonds, 507

Economics (the) of the Tropical Timber Trade, by E. B. Barbier, J. C. Burgess, J. Bishop and B. Aylward, reviewed by Julian Evans, 231

Environmental factors and an assessment of their effects on the response of wheat to fertilizer in on-farm trials in a Mediterranean type environment (Pala, Matar and Mazid), 339

Environmental variability and crop production: a case study from southern Zimbabwe, (Scoones), 291

Environment and Plant Metabolism: Flexibility and Acclimation, ed. by N. Smirnoff, reviewed by Philip John, 104

Evolution of Crop Plants (Second Edition), by J. Smartt and N. W. Simmonds, reviewed by P. R. Shewry, 508

Farmer paticipatory crop improvement. I. Varietal selection and breeding methods and their impact on biodiversity (Witcombe, Joshi and Sthapit), 487; II. Participatory varietal selection, a case study in India (Joshi and Witcombe), 487; III. Participatory plant breeding, a case study for rice in Nepal (Sthapit, Joshi and Witcombe), 487

Farming Game (the), by Bryan Jones, reviewed by Gwyn E. Jones, 375

Field Crop Production (principles of) (Third Edition), ed. by J. Pratley, reviewed by Julian Park, 105

Finger millet (relay intercropped) and maize yields and the effects of leaf stripping, de-tasselling and topping of the maize (Subedi), 57

Flowering in pigeonpea (*Cajanus cajan*) in Kenya: responses of medium- and late-maturing genotypes to location and date of sowing (Omanga, Summerfield and Qi), 111

Fodder and fuelwood production in associations of *Calliandra calothyrsus* and *Pennisetum purpureum* grown on contour bunds in the highlands of Burundi, and the influence of time of planting and spacing (Akyeampong), 79

Fodder weeds as by-products of millet cropping in a Sahelian farming system, biomass production, and feed and economic value (Lamers, Buerkert, Makkar, von Open and Becker), 317

Forages. Vol. 1., An Introduction to Grassland Agriculture (Fifth Edition), ed. by Robert F. Barnes, Durrell A. Miller and C. Jerry Nelson, reviewed by R. W. Snaydon, 505

Forage legume intercropping, contour grass barriers and contour ridging in cassava on Andean

hillsides, soil conservation effectiveness and crop productivity (Leihner, Ruppenthal, Hilger, and Castillo F.), 327
Fuelwood and fodder production in associations of *Calliandra calothyrsus* and *Pennisetum purpureum* grown on contour bunds in the highlands of Burundi, and the influence of time of planting and spacing (Akyeampong), 79

Grass weeds, *see Phalaris minor*

Herbicide treatments and new varieties and their acceptability in on-farm experiments with sorghum (Debrah, Sanogo, Boadu), 219

Inceptisols and rainfall erosivity and erodibility in the southwest Colombian Andes (Ruppenthal, Leihner, Hilger and Castillo F.), 91
India and Pakistan and the problems associated with *Phalaris minor* and other grass weeds (Shad and Siddiqui), 151
Intercropping of maize and beans and a study of the partitioning of applied nitrogen between them (Siame, Willey and Morse), 445
Intercropping sugarcane in an system with maize and potato in the humid tropical climate of Mauritius and the effect of nitrogen fertilization (Ng Kee Kwong, Umrit and Deville), 213

Kenya and flowering in pigeonpea (*Cajanus cajan*): responses of medium- and late-maturing genotypes to location and date of sowing (Omanga, Summerfield and Qi), 111

Land degradation and agroforestry in the humid and sub-humid tropics of Africa (Cooper, Leakey, Rao and Reynolds), 235
Leptochloa fusca, use for the improvement of salt-affected soils (Ashok Kumar), 143
Leucaena and maize grown simultaneously, and competition effects in an alley cropping system in sub-tropical Australia (Jeanes, Gutteridge and Shelton), 49

Maize and beans in intercropping and a study of the partitioning of applied nitrogen between them (Siame, Willey and Morse), 445
Maize and leucaena grown simultaneously and competition effects in an alley cropping system in sub-tropical Australia (Jeanes, Gutteridge and Shelton), 49
Maize intercropping in a system with sugarcane and potato in the humid tropical climate of Mauritius and the effect of nitrogen fertilization of the sugarcane (Ng Kee Kwong, Umrit and Deville), 213
Maize, and the effects of leaf stripping, de-tasselling and topping on the yield of maize and relay intercropped finger millet (Subedi), 57
Malaysia and yields of cocoa clones in response to planting density (Lockwood and Pang), 41
Mauritius and the nitrogen fertilization of sugarcane in an intercropping system with maize and potato in the humid tropical climate (Ng Kee Kwong, Umrit and Deville), 213
Millet cropping in a Sahelian farming system, and the biomass production, and feed and economic value of fodder weeds as by-products (Lamers, Buerkert, Makkar, von Open and Becker), 317
Mineral nutrition optimization in a coconut plantation, taking an experimental approach *in situ* (Bonneau), 405

Nitrogen application and a study of its partitioning between maize and beans in intercropping (Siame, Willey and Morse), 445
Nitrogen fertilizer and the response of young unirrigated clonal tea (Malenga), 63
Nigeria (northern) and physiological and morphological features determining the performance of sorghum landraces (Flower), 129
Nitrogen fertilization of sugarcane in an intercropping system with maize and potato in the humid tropical climate of Mauritius (Ng Kee Kwong, Umrit and Deville), 213
Nitrogen sources (organic and inorganic) and a long-term comparison of their agronomic efficiency and residual benefits for tropical lowland rice (Cassman, De Datta, Amarante, Liboon, Samson and Dizon), 427

Onion and Garlic Diseases (compendium of), ed. by H. F. Schwartz and S. K. Mohan, reviewed by R. B. Maude, 232
Orobanche crenata Forsk., simulation of the seed bank dynamics in some crop rotations in northern Syria (Schnell, Kunisch, Saxena, Sauerborn), 395

Pakistan and India and the problems associated with *Phalaris minor* and other grass weeds (Shad and Siddiqui), 151
Pakistan (highland Balochistan) and water-harvesting in valley floors as a viable option for increasing cereal production (Rodriguez, Shah, Afzal, Mustafa and Ali), 305
Pennisetum purpureum/*Calliandra calothyrsus* associations grown on contour bunds in the highlands of Burundi, and the influence of time of planting and spacing on the production of fodder and fuelwood of such associations (Akyeampong), 79
Pest and disease hazards and sustainability in African agriculture (Goldman), 199

Phalaris minor and other grass weeds in India and Pakistan and the problems associated with them (Shad and Siddiqui), 151

Pigeonpea (*Cajanus cajan*) flowering in Kenya: responses of medium- and late-maturing genotypes to location and date of sowing (Omanga, Summerfield and Qi), 111

Pigeonpea (short-duration) and root system development simulation (Gayatri Devi, Ito, Matsunaga, Tobita, Rao, Vidyalakshmi, and Lee), 67

Planting density and the yield response of cocoa clones in Malaysia (Lockwood and Pang), 41

Potato intercropping in a system with sugarcane and maize in the humid tropical climate of Mauritius and the effect of nitrogen fertilization on the sugarcane (Ng Kee Kwong, Umrit and Deville), 213

Potato (true seed), and the production of seedling tubers derived from them, and their use as seed tubers (El-Amin, Adam, Varis and Pehu), 419

Protected Agriculture: A Global Review (World Bank Technical Paper No. 251), by Merle H. Jensen and Alan J. Malter, reviewed by Bernard Bailey, 233

Races d'Hier pour l'Elevages de Demain (Espaces Rural Series), by A. Audiot, reviewed by I. L. Mason, 106

Rainfall erosivity and erodibility of inceptisols in the southwest Colombian Andes (Ruppenthal, Leihner, Hilger and Castillo F.), 91

Regenerating Agriculture: Policies and Practice for Sustainability and Self Reliance, by Jules N. Pretty, reviewed by Anna Lawrence, 232

Relay intercropped finger millet and maize yields and the effects of leaf stripping, de-tasselling and topping of the maize (Subedi), 57

Research and extension programme formulation in agricultural entomology and the estimation of technological needs and identification of farmers' problems (Sabarathnam and Vennila), 87

Rice (tropical lowland) and a long-term comparison of the agronomic efficiency and residual benefits of organic and inorganic nitrogen sources (Cassman, De Datta, Amarante, Liboon, Samson and Dizon), 427

Root system development simulation in short-duration pigeonpea (Gayatri Devi, Ito, Matsunaga, Tobita, Rao, Vidyalakshmi, and Lee), 67

Sahelian farming system and biomass production, and feed and economic value of fodder weeds as by-products of millet cropping (Lamers, Buerkert, Makkar, von Open and Becker), 317

Salt-affected soils and the use of *Leptochloa fusca* for their improvement (Ashok Kumar), 143

Sisal plantations in Tanzania and soil fertility decline and fallow effects in ferralsols and acrisols (Hartemink, Osborne and Kips), 173

Seed Systems in Sub-Saharan Africa: Issues and Options (World Bank Discussion Papers 266), by V. Venkatesan, reviewed by E. H. Roberts, 104

Soil conservation effectiveness and crop productivity of forage legume intercropping, contour grass barriers and contour ridging in cassava on Andean hillsides (Leihner, Ruppenthal, Hilger, and Castillo F.), 327

Soil fertility decline and fallow effects in ferralsols and acrisols of sisal plantations in Tanzania (Hartemink, Osborne and Kips), 173

Sorghum and on-farm experiments to assess the acceptability of new varieties and herbicide treatments (Debrah, Sanogo, Boadu), 219

Sorghum landraces of Northern Nigeria and physiological and morphological features determining their performance (Flower), 129

Sowing date and location and flowering in pigeonpea (*Cajanus cajan*) in Kenya: responses of medium- and late-maturing genotypes (Omanga, Summerfield and Qi), 111

Spatial variation in yield trials using neighbour plot residuals and its efficient control (Vollman, Buerstmayr and Ruchenbauer), 185

Statutory Intervention in Agricultural Marketing: a New Zealand Approach (World Bank Technical Paper Number 283), by V Jacobaan, G. M. Scobie and A. Duncan, reviewed by J. S. Marsh, 506

Sudan and the production of seedling tubers derived from true potato seed, and their use as seed tubers (El-Amin, Adam, Varis and Pehu), 419

Sugarcane and nitrogen fertilization in an intercropping system with maize and potato in the humid tropical climate of Mauritius (Ng Kee Kwong, Umrit and Deville), 213

Survival in the Sahel: An Ecological and Developmental Challenge, ed. by K. M. Leisihger, K. Schmidt and ISNAR, reviewed by L. S. Anderson, 374

Sustainability and pest and disease hazards in African agriculture (Goldman), 199

Syria (northern) and the simulation of the seed bank dynamics of *Orobanche crenata* Forsk. in some crop rotations (Schnell, Kunisch, Saxena, Sauerborn), 395

Tanzania: Agriculture (a World Bank Country Study), by the Government of Tanzania and the World Bank, reviewed by P. J. Burgess, 105

Tanzania and short duration cowpea in a cotton-based cropping system, effect of planting pattern, time of planting cowpea, and insecticide application to the cotton (Myaka and Kabissa), 225

Tanzania and soil fertility decline and fallow effects in

ferralsols and acrisols (Hartemink, Osborne and Kips), 173

Tea *(Camellia sinensis)* and the response of young clones to drought and temperature. I. Yield and yield distribution (Burgess and Carr), 357; II. Dry matter production and partitioning (Burgess and Carr), 377

Tea (young unirrigated clonal), response to nitrogen fertilizer (Malenga), 63

Temperature and drought response of young tea *(Camellia sinensis)* clones. I. Yield and yield distribution (Burgess and Carr), 357; II. Dry matter production and partitioning (Burgess and Carr), 377

Tropical Fruit Diseases (Compendium of) by R. C. Ploetz, G. A. Zentmeyer, W. T. Nishijimi, K. G. Rohrbach and H. D. Ohr, reviewed by J. M. Hirst, 374

Water-harvesting in valley floors, viable option for increasing cereal production in highland Balochistan, Pakistan? (Rodriguez, Shah, Afzal, Mustafa and Ali), 305

Wheat response to fertilizer and the assessment of the effects of environmental factors on this response in on-farm trials in a Mediterranean type environment (Pala, Matar and Mazid), 339

Yield of cereal grain and protein (Simmonds), 351

Yield of cocoa clones in response to planting density in Malaysia (Lockwood and Pang), 41

Yield trials using neighbour plot residuals and its efficient contol of spatial variation (Vollman, Buerstmayr and Ruchenbauer), 185

Zimbabwe (southern) and a case study of crop production in a variable environment (Scoones), 291
